Dear Guidance Counselors,

I am writing in regards to a scholarship being offered to students in your school district which I hope will be of interest to you.

Our group offers a scholarship for students planning to pursue a career in education. I have enclosed our application form. IF your district has a uniform form for all scholarships that are offered to your students, it would be fine to coordinate our scholarship with others that your district offers. Also, use the deadline you have in place for other scholarships.. We look forward to working with you on this project.

In 2023 and 2024 we awarded 3 scholarships to students in Monroe, New Glarus, BlackHawk, and Monticello. This is our sixth year offering this scholarship. We have been impressed with the quality of applicants from all your districts.

If I can answer any questions or if you need more information, contact me at (608) 558-3445 and I will be happy to visit with you.

Sincerely,

Ruth Espenscheid
GCREA President
