Study Hall	
Elementary assg.	

***7th and 8th have to be in class, no other place for them to go without creating unfair situations for music students.**

****Math 8 and Algebra 8 students have math and study hall.**

*****7th grade music students will have SS either 4th period or 6th period based on whether their music class meets that day. Example:**
band students on band day will have SS 6th period. Band students on choir days will have SS 4th period.
This allows for those students to always have a study hall like the other 7th graders.

******This study hall is for those students who had Social studies on their non music day, 4th period.**

6th grade (All) - need 6 teachers to offer 2 sections of each middle school grade. All teachers need prep and we also need study halls every period.
Simply there isn't enough staff to make this go. We have 2 teachers who only work middle school, Mr. Burke and Mr. Signer.
Where there is only 1 section of a class, it is because there are not enough available staff during that period.
